

Explanation of Medicare Benefits

Medicare Part B Benefits: You are responsible for paying the Medicare deductible each calendar year for services and supplies covered by Medicare. After the deductible has been met, Medicare then generally pays 80% of the Medicare approved amount. The patient is then responsible for the remaining 20%, which is the coinsurance.

Dr. Stefano Militello is a participating physician with Medicare and have agreed to except the Medicare approved amount as payment in full. After the deductible has been met, Medicare will pay its share directly to our office and then requires our office to bill you for the remaining 20% of the approved amount. If there is secondary insurance to supplement Medicare, our office will attempt to receive payment from them.

If there are any questions regarding a bill you receive from our office, please feel free to contact us for a complete explanation. We want all of your experiences through our office to be positive ones and look forward to working with you to achieve that goal.
